QCC Quick Connect Cabinet

Lake Shore Electric's QCC (Quick Connect Cabinet) provides a dedicated, permanent connection point for integrating a temporary power source.

The QCC offers a straightforward and safe solution for connecting a temporary generator to a facility's distribution system using male camlock-style receptacles. The QCC can also be configured with female camlock receptacles to accommodate a load bank connection.

Model: 1600A - 4000A

Standard Features

- Color-Coded Camlock Receptacles
- 2-Wire Start Binding Post
- NEMA 2-Hole Bus
